

**HOT NEWS FROM CABUR WORLD**  
**NEW SMART PRINT AND SMART ROLL**  
**THERMAL TRANSFER PRINTING SYSTEM**

# Smart Print.

The SMART PRINT **thermal transfer** printer is compact in size for instant use and has an innovative design to meet any requirement in the electric marking industry. Provided with a **display, 2 control buttons** and **sound alerts**, with instant feeding and ejection of cards and labels:

- » Tags for sleeves for wires;
- » Wraparound cable markers;
- » Tags for terminal blocks;
- » Labels for equipment and strips for modular switches;
- » Tags for contactors;
- » Strips for electric panels;
- » ID tags for distributions boards.

# Smart Roll.

The SMART ROLL printer is a quick, **user-friendly** solution for printing larger runs. It is low maintenance and **extremely silent**. Provided with a control **display** and **sound alerts**.

It is the ideal solution for fast, continuous printing of:

- » Tags for sleeves for wires;
- » Wraparound cable markers;
- » Tags for contactors.

Tags for terminal blocks Cabur Weidmueller, Phoenix, Contact, Wago, Legrand, Contactclip, Entrelec

Tags for contactors

Labels for equipment and strips for modular switches

Adhesive tags for distributions boards

## PRODUCTS FOR MARKING

We provide a full range of products able to meet your specific marking needs.

Flat tags for cables

Wraparound cable markers

Tags for contactors

# MarKing Pro XT

NEW

## Software for marking

MarKing Pro XT is an application to print characters and images on tags and cards, monochromatically. It can be used with the Smart Print and Smart Roll printers, as well. With this user-friendly, extremely flexible system, users may select the marking settings, adjusting the sequences of characters and symbols to meet any requirement and print them out on Cabur tags, which can be selected from a database included in the software. MarKing Pro XT can import and handle Excel, csv, txt and other formats, as well as support Unicode formats. The software can automatically import data to produce tags and labels for wires, terminal blocks, and other equipment for the most common electric CADs, such as SPAC Automazione, IGE-XAO, and ELETTRON GRAPHICS. With the MarKing system, the Smart Print and Smart Roll printers may be used at the same time.

With a user-friendly graphic interface, MarKing Pro XT is easy to use, shows previews and does not require any special technical skills.

Cabur can also make labels to order, from the customer's MarKing Pro files. Send Cabur your MarKing Pro XT files for a quotation, and enjoy our most efficient service and reliable results.

### Technical requirements for installation:

Platform: PC

Operating system:

- for use with Smart Print: Microsoft® Windows™ Xp SP3 or later;
  - for use with Smart Roll: Microsoft® Windows™ Xp SP3 or later.
- Memory: 1Gb RAM minimum
